Album: *Ultra Dark Radio – Compilation III. "Mensch und Maschine"*

Label: XenoBiotic Records

Distrib.: afmusic (digital)

SD: 04/18/2008

The history of the relationship between man and machine is a history of symbolic interpretation and design of this relationship. But on the third volume of the Ultra Dark Radio-Compilation it has less to do with omnipotent feelings than with the contrast of various musical genres. So on the first part of the compilation mainly machines are running their riot during the second part brings handmade guitarsounds to the fans' ears.

With that, all contrasts had been shown anyway which came up in the collaboration between both I-Net Radios Ultra Dark Radio and darkeRRadio, and it's going on for 2 years now. First of all complementing each other in an exceeding way.

And so there are with *Taxim, Wynardtage, T.H.Industry, davoS, Decence, Warforge, DEN.C.T.BUG, Isis Signum feat. Sara Noxx, davanTage, Dolls of Pain, Advocatus Diaboli, Arts of Erebus, Curious, Heavy-Current, Mystigma, The Pussybats and Reptyle* – and many more damn cool bands – no unknowns on the compilation. Bands and artists which both have found their solid place on the stations are contributing here with unreleased tracks or exclusive remixes of their songs.

"Man and machine" or as the colloquial language tells: "Opposites attract."
